About This Game

Battlegrounds of Eldhelm is an indie, online, free-to-play CCG (collectible card game) / RPG (role playing game).

It is heavily influenced by RPGs and borrows some mechanics and ideas. The result is a fascinating mixture between role playing game and a classic card collection game with awesome features like:

- Unique card collecting process;
- Powerful card combination mechanics;
- Class specific abilities;

Play on your own in the single player campaign or duel other players for high scores. The available game modes are campaign, custom versus A.I. and four types of multiplayer - arena (ranking pvp), custom (ranking pvp via invite - challenge), cooperative (slay the beast) and tournaments (in direct elimination).

- Play for the ladder board, challenge your friends or join forces against a powerful boss like enemy.
- Crusade in the campaign to be the ruler of the Eldhelm land and never be bored with the daily quests!

-
- We are doing tournaments with awesome rewards at least once a month!

Battlegrounds of Eldhelm features:

- Epic music and 3D graphics;
- Three unique races (orc, elf, human) each containing different character classes (melee, ranged, caster) with completely different play styles;
- Customization of the visual appearance of your hero;
- Translation in multiple languages;
- A true multiplatform experience - available for web-browser, desktop, and mobile devices;

This point and click game by Deck 13 interactive was fun to play, but wasn't without flaws. If you can look past some of its shortcomings I think that most fans of the genre will enjoy it. The story is what kept me playing. Its not the most mind blowing game you'll ever play, but it is a good time. <https://www.youtube.com/watch?v=3Jk2-uHfe8E>. This game is so Awesome make this Question my life

11/10

' 3 '. One of the best TD game + it have a scenario! A story!. Okay After Played more than 1500 Hours on this Game i can sayits a Best Counter Strike Game Ever.

Every thing is similar to CS 1.6

But Best Mode Is Zombie Scenario Mode.

I would like to Recommend People to download this Game and Take a Advantage of Being a Counter Strike Lover.

After 8th Feb Update...CSNZ Improved alott from back time update.

New Auction Event makes each and every player has Good weapons and they have the chance to collect them from Auction.

Now Just one thing i want to Say to NEXON\VALVE\Game Devs...after removing Mileage Decoder,now there's shortage of mileages. So,i requesting you guys if you guys Start selling Mileages on Shop. i Will be really helpfull for Each and Every Player can Use the Auction properly :)

Thank You..... Best romance game I ever played XD. This was a good mod it was most likely made before portal 2 came out because GLaDOS erases her memory and i think Chell dies. These test chambers are really hard so maybe 10 or 11 up should play. This contains new testing elements and one disgusting thing. Other than that its great!. good game ;). One of those games that has been swept under the rug and deserves more attention than its getting.. LOVE IT! Gets really tough but it has that 'just one more try..' thing going on that keeps you coming back for more.

This game is really fun and gorey but the problem is even if I have the worst resolution or it's windowed it freezes every time I make a danger chamber or whatever it is I start it and then it freezes. It was very controllable like maybe on December but now I can't even play it. I do recommend this but only if you have a strong computer.. Decent DLC as usual.

The character demonhunter is quite fun to play!

Didn't get a chance to play the other one yet, since you have to unlock it first.. Crashday Redline edition is an ambitious version of the original game Crashday that came out in 2006. The new Crashday still looks and feels like the original version of crashday. The developers definitely did stick to the game's roots. The Newer version is enhanced with a new gui, a party system, and a few bug fixes. The new gui uses a red and black color scheme that looks amazing. The new gui isn't the boring "modern", flat, ms-paint-like, 2018-youtube, design. The Gui still feels modern yet it still resembles the old design. A new party system. Now you don't have to go through the tedious task of port forwarding if you want to share your maps. The game still uses the old soundtrack though you can add your own music through the workshop. Also you can upload and download maps directly from the workshop. The game now comes with built in mod support. Add cars, music, ambients, and whatever to the game. You can even create modded lobbies and players that join will automatically download the mods needed. The game still has the old feel and the community does resemble the old internet.

The section below of this review is for new players.

If you're into racing, stunts, and blowing up cars then this game is for you. The game has a shallow learning curve so if you struggle with learning new concepts this game won't be that hard for you but if you can learn things quick good for you! The only con is that the bots are sometimes a little too easy. The ai could use some improvements. The game modes are Wrecking match. Wrecking match well you have a bunch of cars and who ever wrecks the most cars wins. Wrecking matches typically have missiles and guns built onto the cars. Racing well just your typical racing I guess. Stunt show in stunt show you do different tricks to gain points the more points you have the better. Bomb run try not to go too slow if you fall under the speed limit your car is dead. Pass the bomb try to blow up a car by passing the bomb to the other opponent. Test drive just drive. Those are the basic game modes. The game even comes with a built in track editor you can create your own tracks and upload them to the workshop, play against bots or play multiplayer.

. Machine gun has sniper scope, nothing more to say. This game is better than cornflakes. And I like cornflakes.. Bowling and zombies. Who wouldn't like this? :P
